

Resolution No. 202410/001

Date: October 1st, 2024

---

**PUBLIC RESOLUTION**  
**Restoration of Lost LEVER Tokens and Contract Adjustment**

---

**WHEREAS**, a network bug, identified and later fixed, resulted in the loss of 1,000,000 LEVER tokens for one of the tokenholders, as the tokens were withdrawn from the source account (0:f53211952b9bdb58a4ebc0c9a8fc5df7c73c9c0b81aa4e653ab5e0260c3712e1) but never arrived at the target account (0:525654ab80323818e8ba310875b4327b07a0b8a2bdbce5b742f0fcf1805ea197) due to the token wallet freezing because of accumulated storage fees;

**WHEREAS**, these 1,000,000 LEVER tokens were intended to be converted into 1.2 million EVER tokens during the LEVER unlock procedure;

**WHEREAS**, the LEVER treasury has accumulated earlier unlocked LEVER tokens, and the treasury's current quantity exceeds 1,000,000 LEVER tokens;

**WHEREAS**, the lost LEVER tokens are not deducted from the LEVER root contract's total supply;

**WHEREAS**, it is technically impossible to recover the lost LEVER tokens from the initial transaction;

**WHEREAS**, the Everscale Governance is committed to serving the community by ensuring fairness and trust in situations like this;

**THEREFORE, BE IT RESOLVED** that the following actions be taken:

**1. Token Restoration:**

- Transfer **1,000,000 LEVER tokens** to the affected tokenholder's target address (0:525654ab80323818e8ba310875b4327b07a0b8a2bdbce5b742f0fcf1805ea197) to allow regular participation in the LEVER unlock procedure.

**2. Non-Duplication Assurance:**

- This transfer shall not be considered double spending, as no additional tokens are minted, and the LEVER program's overall collateral and total value remain unchanged.

**3. LEVER Contract Adjustment:**

- Upgrade the LEVER root token contract to align the total supply with its actual value of **49,000,000 LEVER tokens**, reflecting the true state of the contract.
- **Note:** This contract upgrade will occur only after the official conclusion of the LEVER unlock program.
